the premier source for ozone generation

## ID-20<sup>®</sup> Modular Ozone System

Development partner – O3 Technology AB, Sweden

### Concept:

A robust system for generation and delivery of ozone directly into air to be treated – with emphasis on delivery into large volumes of air - long service and ease of maintenance.

### Technology:

Purpose-designed UHF power supply generating very high voltage for maximum flux-density on dielectric surfaces.. For efficient ozone production in foul air and maximum service interval..

### Main Application:

Direct in-duct air treatment for:

- ✓ Odour treatment
- ✓ VOC reduction
- ✓ Disinfection - Bacteria & Virus
- ✓ Composting plants
- ✓ HVAC systems - IAQ
- ✓ Municipal – sewage systems
- ✓ Animal / poultry enclosures
- ✓ Waste storage/ transfer
- ✓ Food storage facilities

ID-20 – in typical duct-mounting arrangement

### Typical Specification:

<b>Overall Dimensions</b>	W300 x L300 x D300mm
Cooling	Forced air min 125m <sup>3</sup> /hr
Power	230v AC primary 15Kv secondary 250watts
Feed Gas	Air to be treated
Ozone production	20g/hr nominal
Control	ON/OFF or 4-20mA remotable control
