the premier source for ozone generation

AC-20 Modular[®] - Ozone System

Development Partner – O3 Technology AB, Sweden

Concept:

A competitive flexible & rugged modular ozone system with optional peripherals, and enclosure system enabling OEM's and process engineers to add a competitive ozone feature or process stage to existing or new products... 5-module pack incl one controller
Next-day UK Delivery (from Spring 07)

Technology:

Proven high-efficiency ceramic dielectric & compact UHF switch-mode power supply with integral air-cooling Module...

Cabinet Option – A standard 3-bay Chassis-Pack is available with fittings ready to receive multiple AC-20 modules and peripherals . **Ready to go..**

Main Application:

Oxygen-fed systems 5g/h - 200g/h
OEM's
Process engineers
M & E contractors
Food & beverage,
Process, filling systems, rinse systems
CIP –
Food storage
Odour treatment,
Effluent,
Ground-water treatment
Package plants

NOTE – The **AC-20 Modular** system is the most flexible 20g/hr product available..

AC-20 Modular[®] - ultra-compact – high-concentration ozone from 0 to 200g/hr +

Typical Specification:

Dimensions (mm)	L235 x H 158 W160
Ozone Production	20g/hr
Power	230v/50Hz 200 Watts
Weight	5kg
Feed gas	Oxygen
Cooling	Air-Cooled
Gas Connections	8mm SERTO Compression
Control Options.....	Manual ON/OFF
Automation –	Programmable controller RS485 coms
